

SMART VACUUM NET

AIR QUALITY | QUALITY OF LIFE

TUBO[®]
Smart Vacuum Net

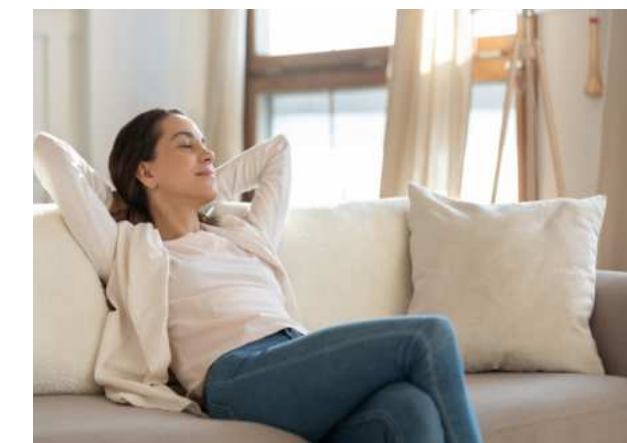

The ecosystem that improves indoor well-being

Technological, Smart, Powerful, Green:

this is the redefined environment by **TUBO** with **SMART VACUUM NET**.

SMART VACUUM NET reinvents the idea of state-of-the-art vacuuming, transforming it into a smart net that remains constantly connected to the internet.

SMART VACUUM NET is the innovative system that transforms the idea of **INDOOR WELLBEING**, ensuring clean and safe indoor air.

SMART VACUUM NET is powerful, quiet, hygienic and convenient to use. With a wide range of accessories, it is able to meet all users needs.

WHY CHOOSING TUBÒ SMART VACUUM NET

Practical and Technological

SMART VACUUM NET can be completely managed through the **AERTECNICA DEVICE APP**. Experience the convenience of voice control thanks to Google Home and Amazon Alexa.

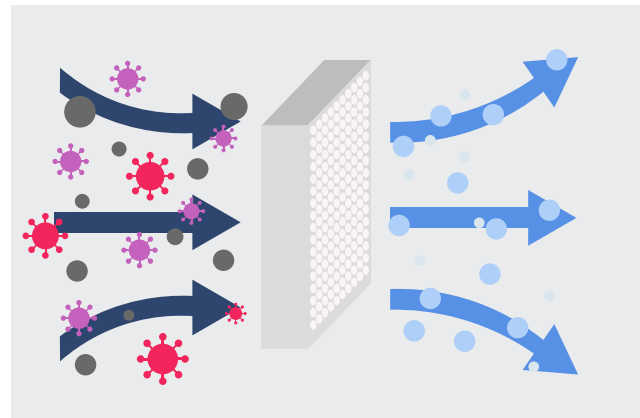

The self-cleaning APF System minimizes filter maintenance operations, the smart system notifies you when it is time to change it or clean it.

The Clean Bag collection system is quick, easy and it guarantees an airtight seal, limiting direct contact with dust.

Hygienic

It is the only system which guarantees the reduction of micro-dust in the air, because it is channeled outside of the environment.

Quiet

SMART VACUUM NET can be used freely and in every moment. Without ever disturbing.

Powerful

SMART VACUUM NET has an higher power than a traditional vacuum cleaner, making housekeeping more effective and faster.

Improves indoor air quality

Prevents the onset of allergies

Drastically reduces the formation of microparticles

Reduces noise pollution

1 AIRÒ BREATH

The air purifier, thanks to its HEPA H12 filter with active coals and negative ions generator, eliminates 99.5% of pollutant particles and.

2 TUBÒ ROBÒ TR900L

The vacuum cleaning and floor-mopping robot works with complete autonomy and automatically empties the dust into the centralized vacuum system.

3 SERVICE SOCKET

This socket, installed in the cabinet, can facilitate the use of some cleaning accessories for clothes shoes, filters, etc.

4 TUBÒ ROBÒ TR900L BASE

Designed as a return base of the ROBÒ, it is useful for recharging, emptying the container and Automatic filter-cleaning.

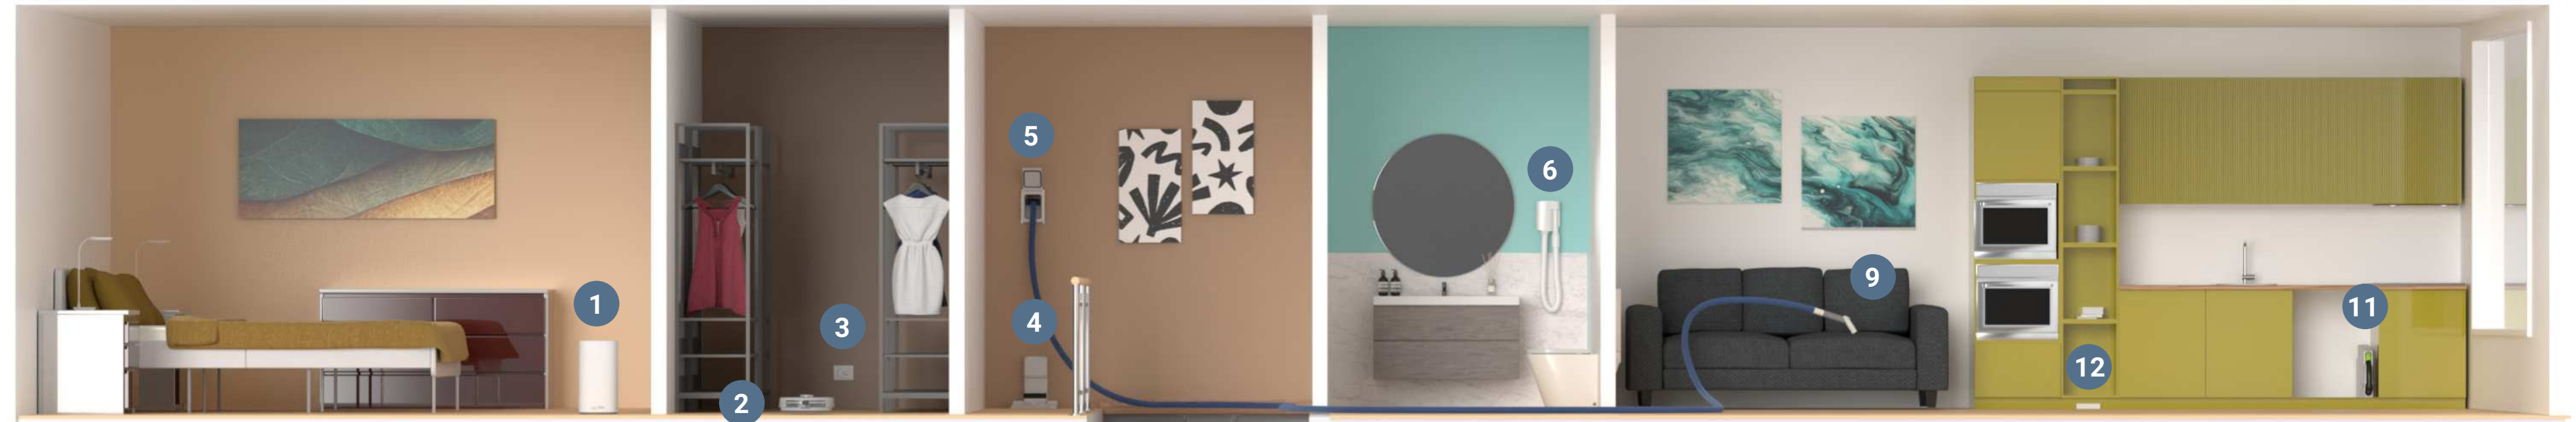

5 PRATICO SMART

The retractable hose is extracted from the vacuum socket for quick and practical cleaning. At the end of the cleaning, the hose disappears with a simple action.

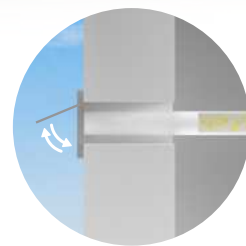

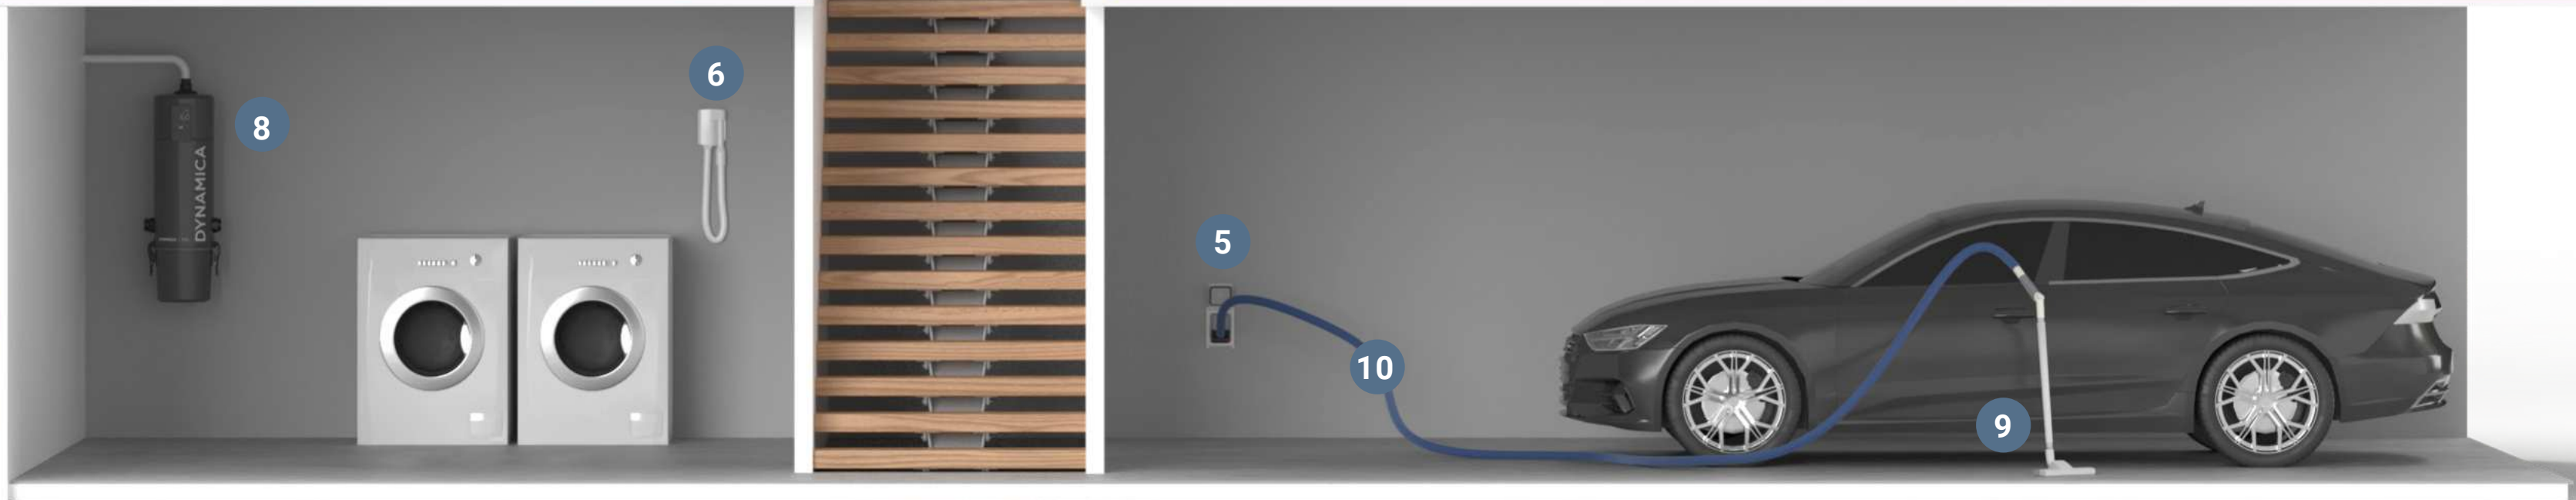

6 TUBÒ SPEEDY

The innovative integrated accessory to the system is ideal to facilitate cleaning in the laundry, bathroom and/or walk-in closet.

Control everything with the App

7 EXTERNAL EJECTION

The Micro dust is gathered and delivered outdoors without being reintroduced indoors.

8 TUBÒ CENTRAL POWER UNIT

It is the heart of the TUBÒ SMART VACUUM NET. Innovative, silent, and efficient, it is designed and built to respond to every need of the market.

9 BRUSHES AND ACCESSORIES

The wide range of accessories makes for efficient cleaning of all different kinds of surfaces.

10 FLEXIBLE HOSE

The flexible hose, easy to handle and durable, with its different lengths is suitable for every cleaning activity and is compatible with all accessories.

11 VROOM

Vroom is a quiet and practical accessory that integrates with the system for quick cleaning session. Extracting the flexible hose automatically starts the central vacuum unit.

12 VAC PAN

The Vac Pan vacuum socket has a modern design and is suitable for different rooms of the house. It is activated by pulling a lever with your foot and vacuuming the dust approached by it with the help of a broom.

Pratico Smart

The retractable hose socket
the convenient and invisible solution

Prese New Air

They are defined by a minimalist and
meticulously crafted design, with attention to
every detail, making them elegant and modern

Accessories for every need and environment

TUBÒ | ROBÒ

Vacuum cleaner and floor mopping Robot with Laser Mapping System and automatic dust container emptying with Smart Vacuum Net.

TUBÒ® ROBÒ with Plug & Play base; is the only cleaning robot with automatic self-emptying function from its dust container into the centralized Smart Vacuum Net, a feature that makes it a valuable and almost completely autonomous cleaning assistant.

Thanks to the self-cleaning Plug & Play base it is compatible with all centralized vacuum systems.

Everything under control with the App

Connect TUBÒ® ROBÒ To the AERTECNICA DEVICE app to schedule and monitor its cleaning operations, even when you're away from home.

The main functions available from the app are:

- Dividing the house into cleaning areas
- Customized scheduling
- Creation of no-cleaning zones
- Viewing cleaning cycles history
- Voice Control - Google Home and Amazon Alexa

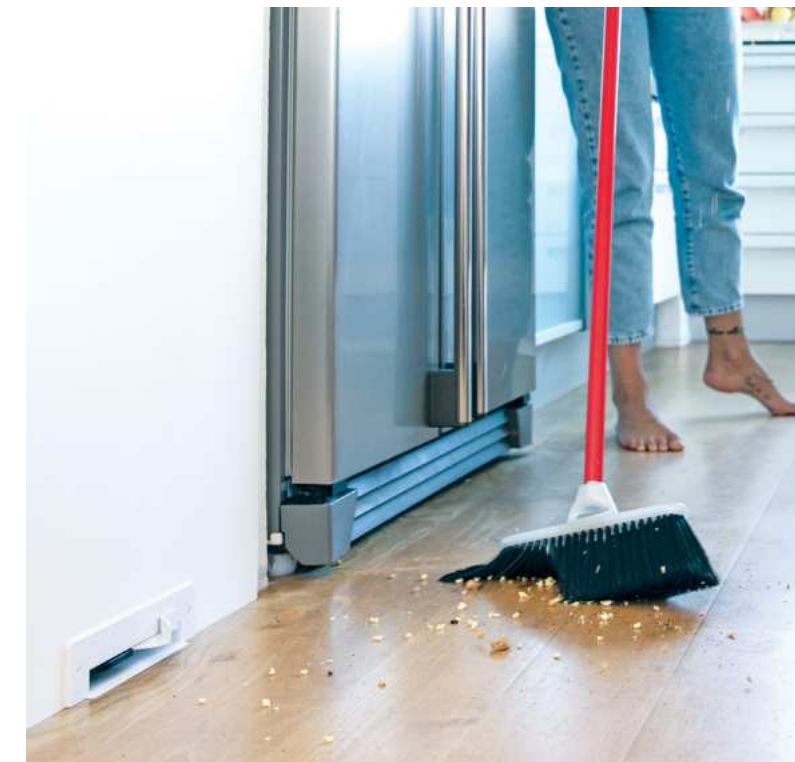

Self-cleaning system

Kitchen

Thanks to the wide range of accessories and brushes, SMART VACUUM NET meets any hygiene requirement. This ensures effective and practical cleaning of every surface, even the most difficult ones.

Living area

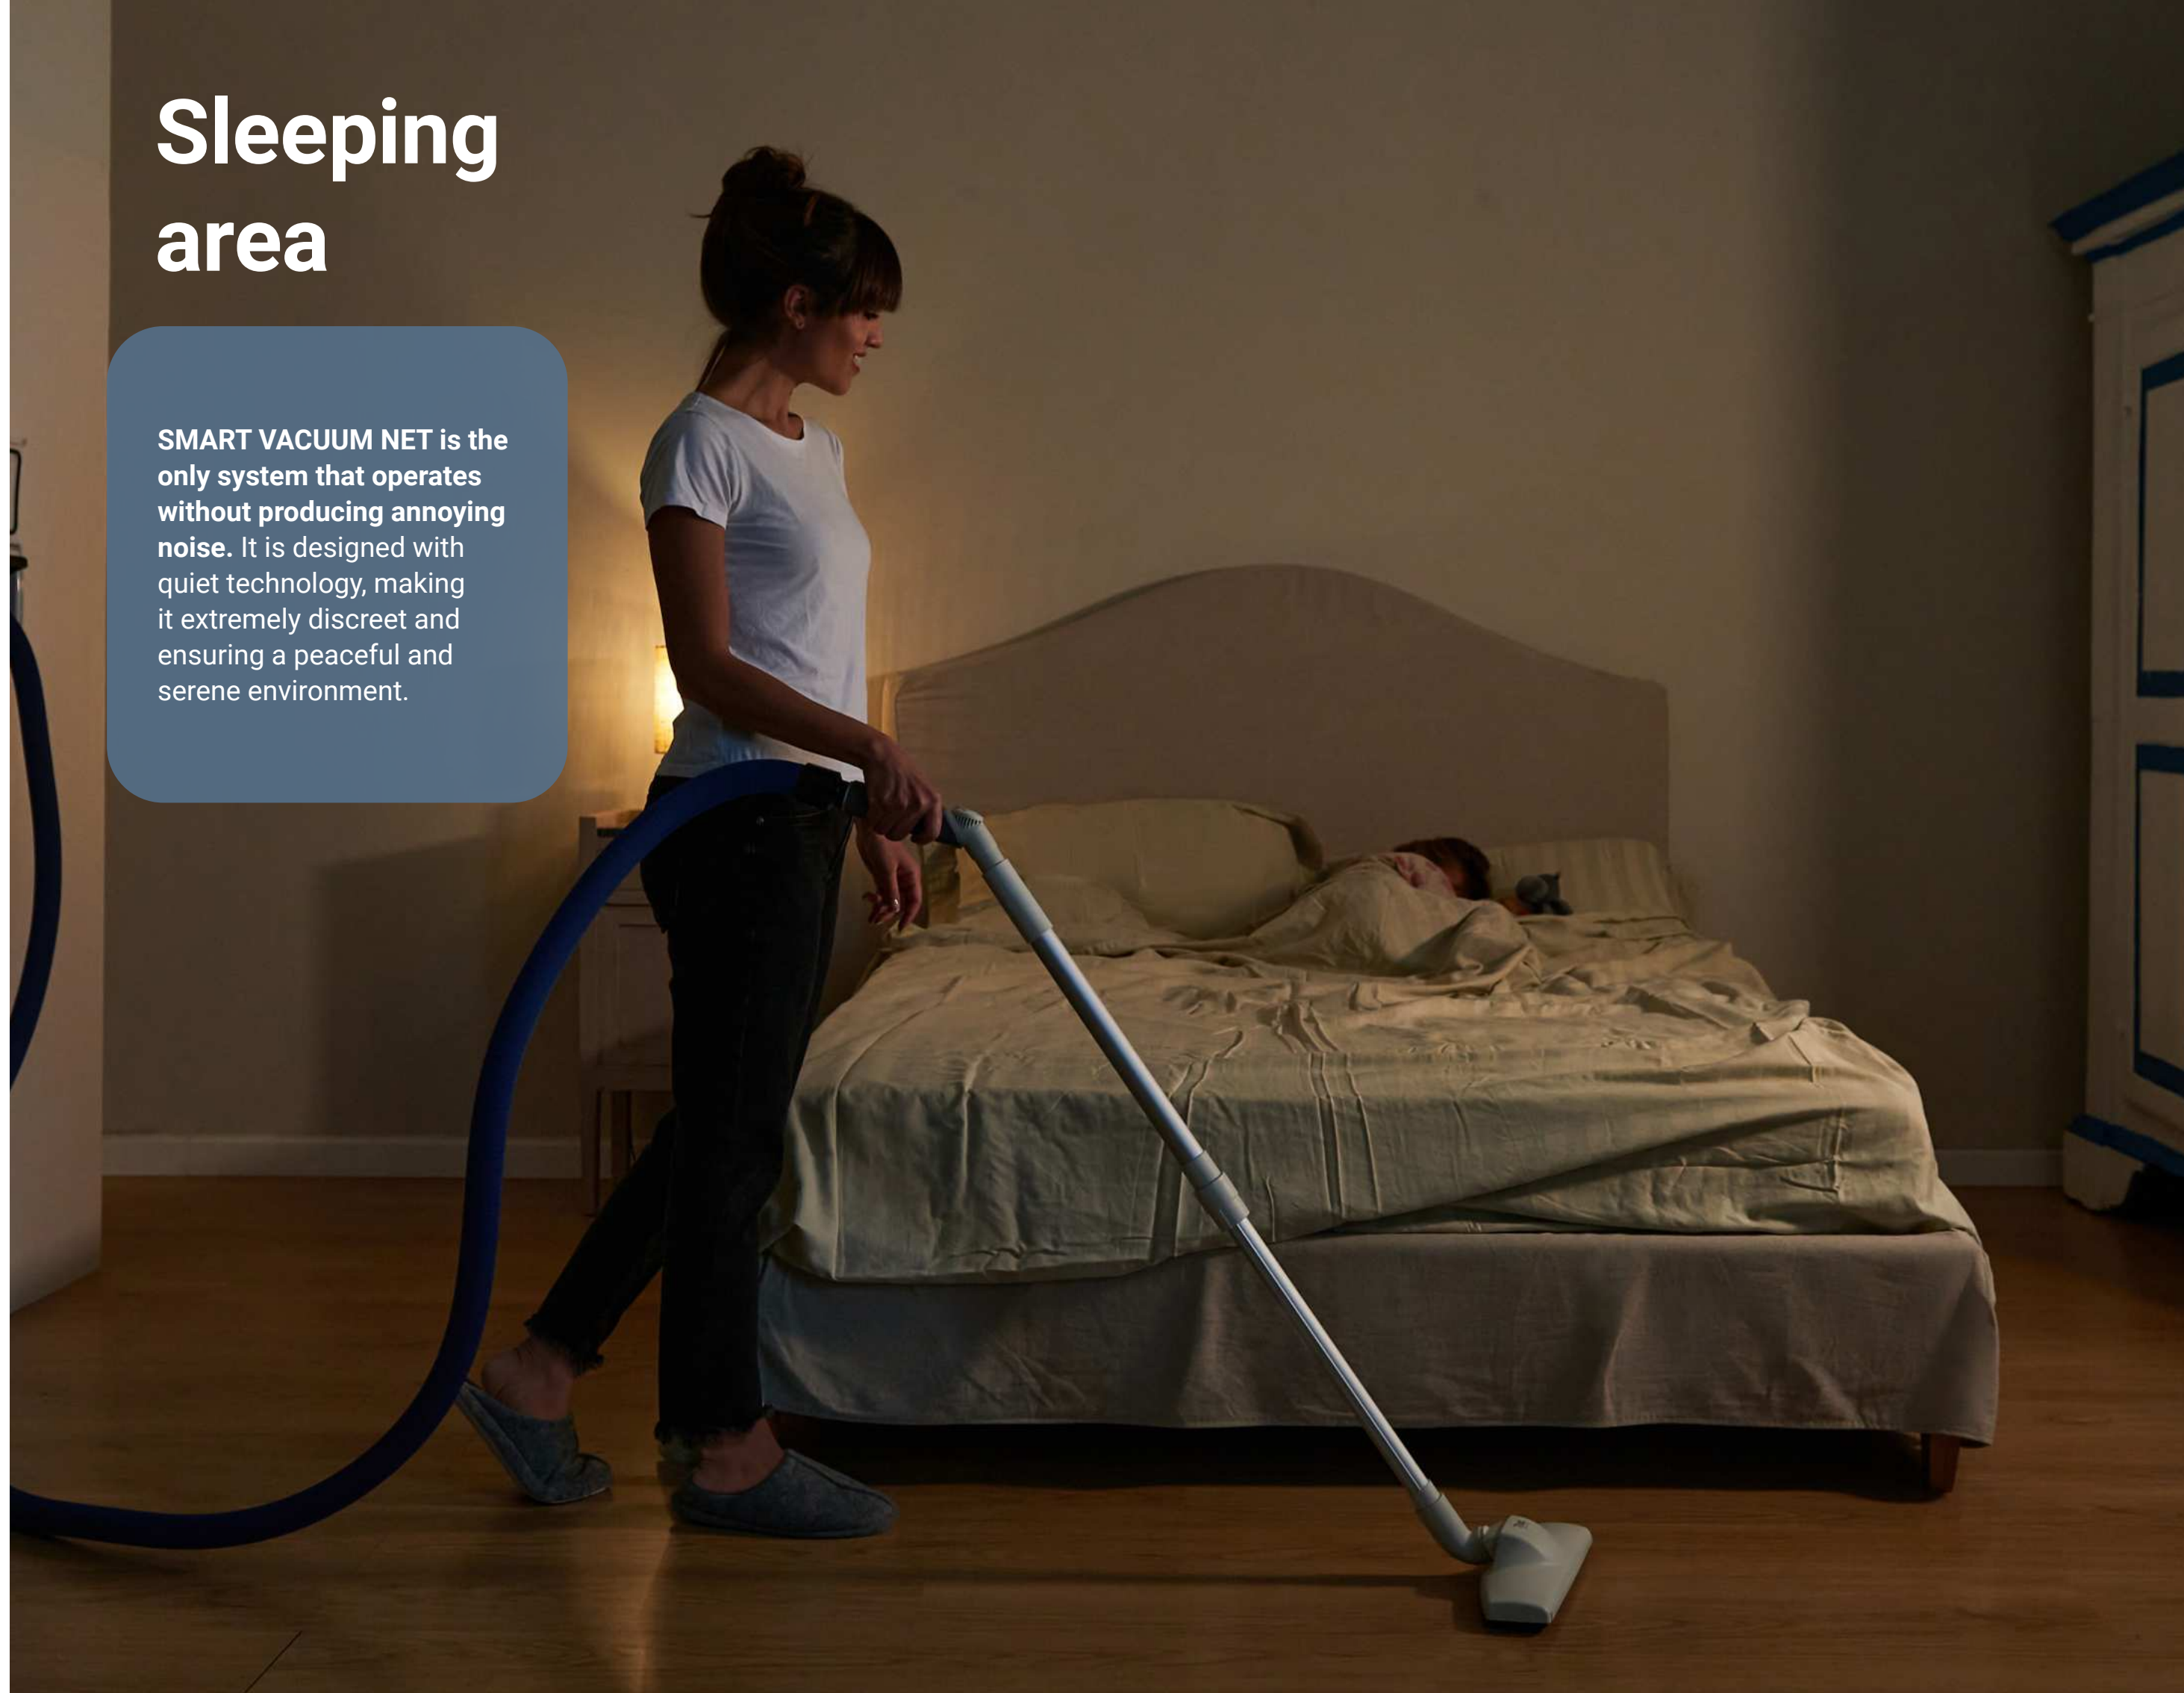

We can use the SMART VACUUM NET at any time: perfect for cleaning clothes or during activities necessary for the maintenance or cleaning of remote corners or surfaces.

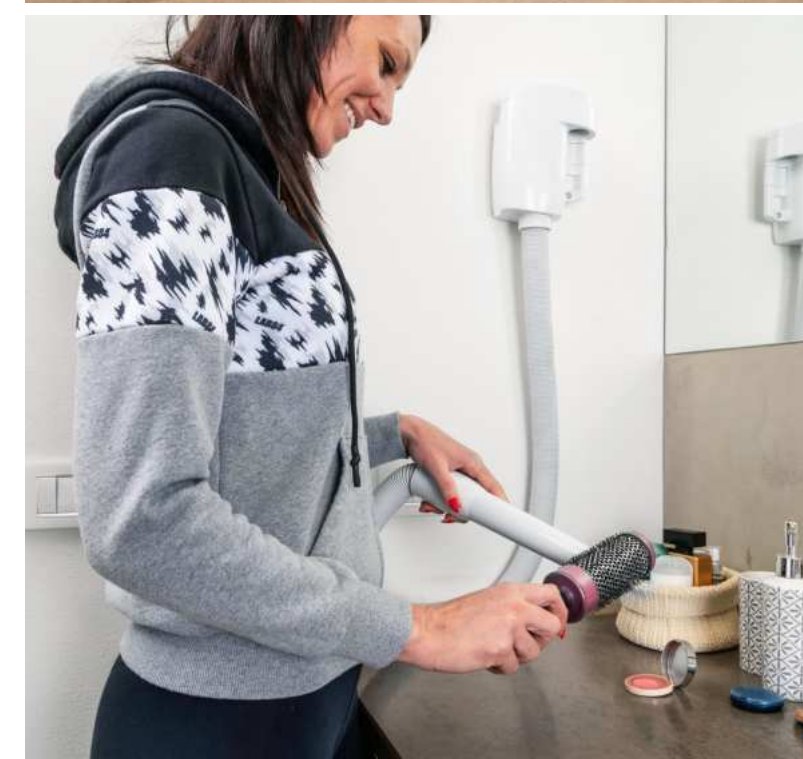

Sleeping area

SMART VACUUM NET is the only system that operates without producing annoying noise. It is designed with quiet technology, making it extremely discreet and ensuring a peaceful and serene environment.

For every need

SMART VACUUM NET, thanks to its wide range of accessories, simplifies daily tasks, from cleaning the bathroom and stairs to maintenance and various other cleaning activities.

For outdoor, hobbies and maintenance

The multiple functions of the SMART VACUUM NET allow it to be used even in the outdoor areas of the home.

Every cleaning task becomes quick and accurate: from maintaining the stove or fireplace, using hobby equipment and cleaning the car.

For our animal friends

The brush kit designed for pets allows you to clean and remove the fur of our hairy friends from carpets, sofas, chairs, and other textiles. You can also brush your pet while simultaneously vacuuming up the excess fur.

Brushes for vacuuming excess fur from dogs, cats, and other animals

Self-cleaning brush
It can be used for clothing, even without a vacuum cleaner

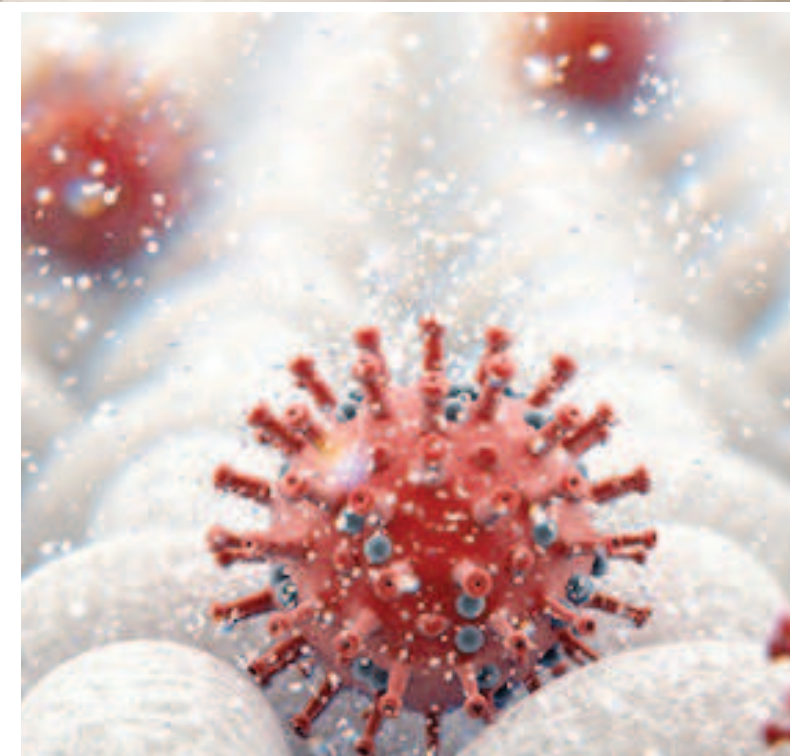

Tapestry brush

AiRO | BREATH

AIR PURIFIER with negative ion generator

The quality of the air we breathe also depends on the amount of negative oxygen ions present in it. Negative ions, in fact, help improve energy, mood, concentration, cognitive performance, sleep quality, and blood oxygenation.

Our philosophy

Since 1985, **Aertecnica** has pioneered a path of innovation while being environmentally aware in Italy by introducing its centralized vacuum systems.

Our mission is to ensure clean air in people's living environments.

By focusing on reducing dust, bacteria, and microorganisms, and decreasing noise, we address critical aspects of environmental health and well-being.

Aertecnica remains committed to researching new solutions and technologies to meet these challenges.

In 2000, we launched the **TUBÒ** brand, initially representing our centralized vacuum system.

Today, it has evolved into **SMART VACUUM NET** in response to the needs of users and modern environments.

SMART VACUUM NET revolutionizes the concept of cutting-edge suction, transforming it into an intelligent network that remains constantly connected to the internet.

SMART VACUUM NET is the innovative system that changes the perception of **INDOOR WELL-BEING**, ensuring healthier, cleaner, and safer indoor air for the entire family.
