| | 2 VAC PAN 90° UNION |
| | 3 FLEXIBLE HOSE |
| | 4 FIXING CLAMPS |

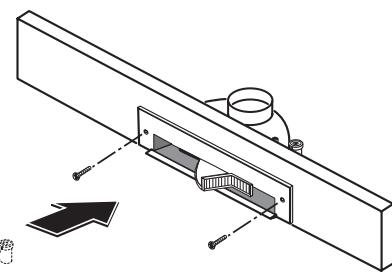

INSTALLAZIONE - INSTALLATION

Estrarre il battiscopa dal mobile
Eseguire il taglio con le misure indicate (cm.)
e i fori per il fissaggio della presa.

Remove the skirting board from the furniture unit
Cut it according to the measurements indicated
(cm) and make holes for attachment of the socket.

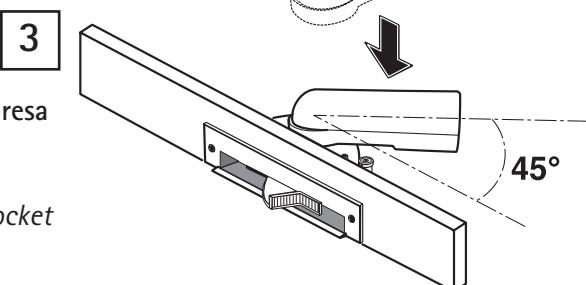

1

2

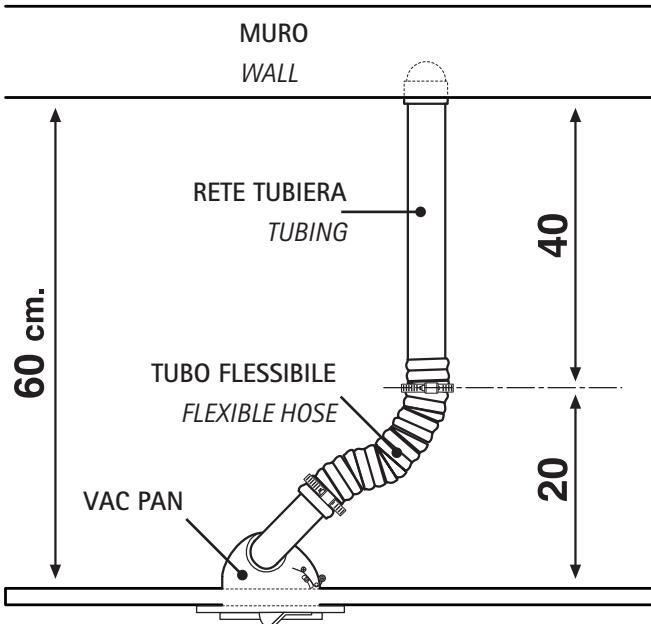

Montare la presa sul battiscopa
e fissarla con le viti
Assemble the socket on the skirting board and fix it in place using screws

3

Montare il raccordo sulla presa
con l'inclinazione indicata
Assemble the union to the socket
as per the angle indicated

4

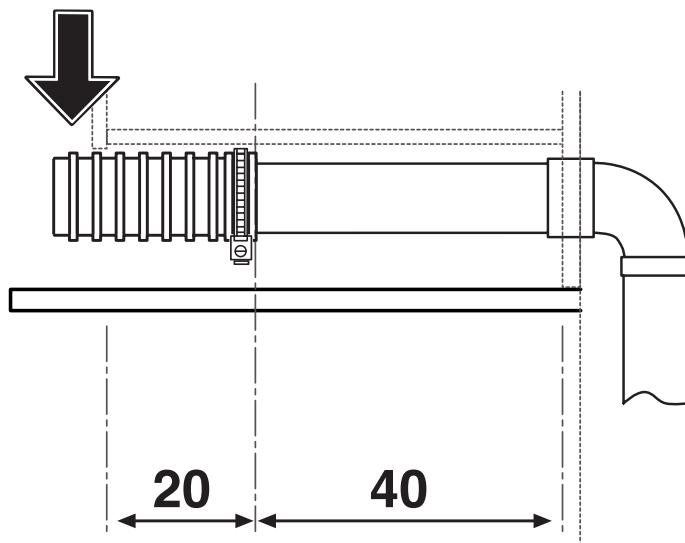

VISTA IN PIANA DEL COLLEGAMENTO ALLA RETE TUBIERA
Per agevolare il montaggio/manutenzione della presa, il collegamento della Presa Vac Pan deve essere fatto come indicato in figura.

PLAN VIEW OF CONNECTION TO THE TUBING

In order to facilitate assembly/maintenance of the socket, connection of the Vac Pan Socket must be carried out as indicated in the figure.

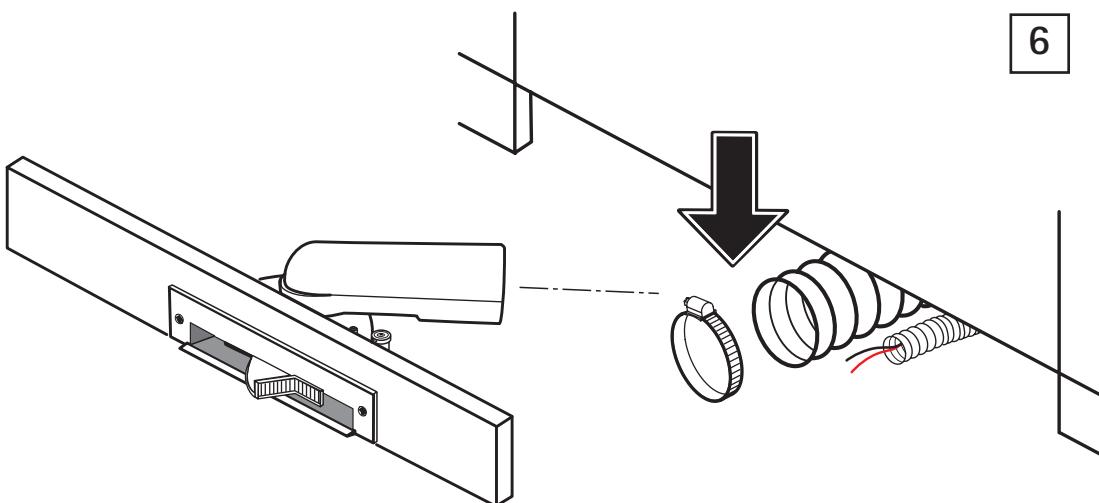

5

Prolungare la linea aspirazione fino a 2/3 del vano tecnico e collegare il tubo flessibile in modo che possa fuoriuscire sul fronte del mobile come indicato

Extend the vacuum line up to 2/3 the way to the technical compartment and connect the flexible hose so that it comes out from the front of the furniture unit as indicated

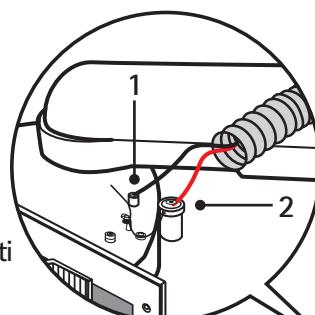

6

Collegare il raccordo per Vac Pan all'estremità del tubo che fuoriesce dal mobile e stringere la fascetta

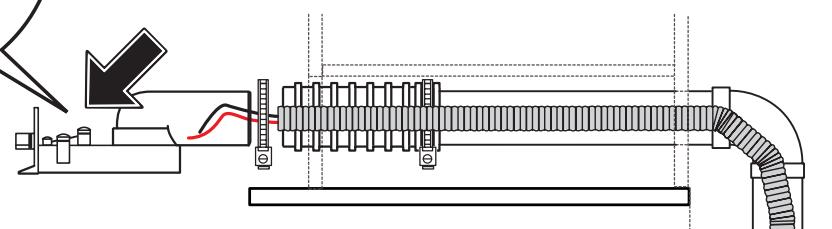

Connect the Vac Pan union to the end of the hose that comes out of the furniture unit and tighten the clamp

7

Collegare la linea prese 12V ai morsetti della presa Vac Pan come indicato

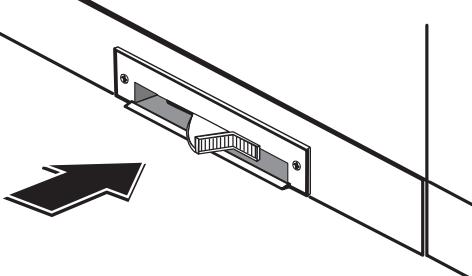

Connect the 12 V socket line to the Vac Pan socket clamps as indicated

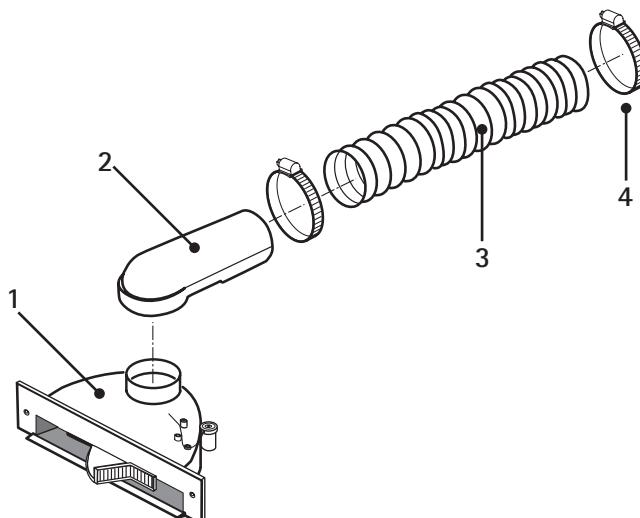

8

Completati tutti i collegamenti rimontare il battiscopa nel mobile.

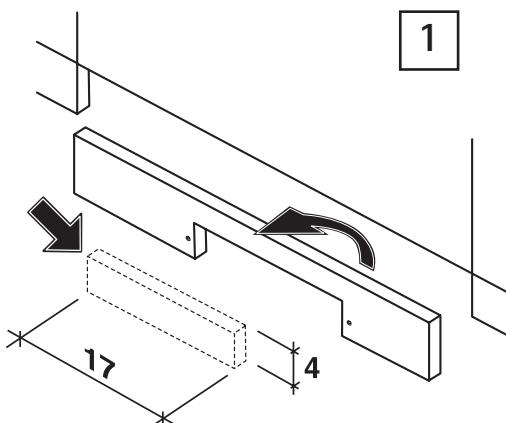

Once all connections have been completed, reassemble the skirting board to the furniture unit.

INSTALLATION - INSTALLATION

Die Fußbodenleisten vom Möbelstück entfernen
Den Schnitt mit den angegebenen Maßen (cm) und die Löcher für die Befestigung der Saugsteckdose realisieren.

Extraire la plinthe du meuble
Couper selon les mesures indiquées (cm) et effectuer les trous pour la fixation de la prise.

1

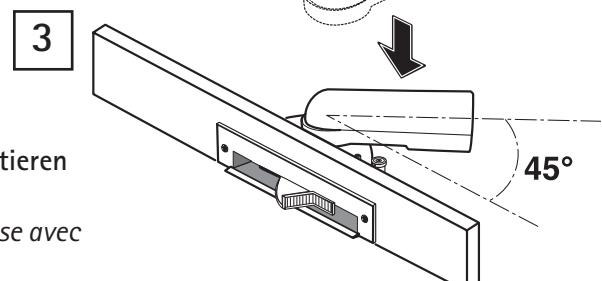

2

Die Saugsteckdose an der Fußbodenleiste montieren und mit den Schrauben befestigen

Monter la prise sur la plinthe et la fixer avec les vis

3

Den Anschluss an der Saugsteckdose mit dem angegebenen Winkel montieren

Monter le raccord sur la prise avec l'inclinaison indiquée

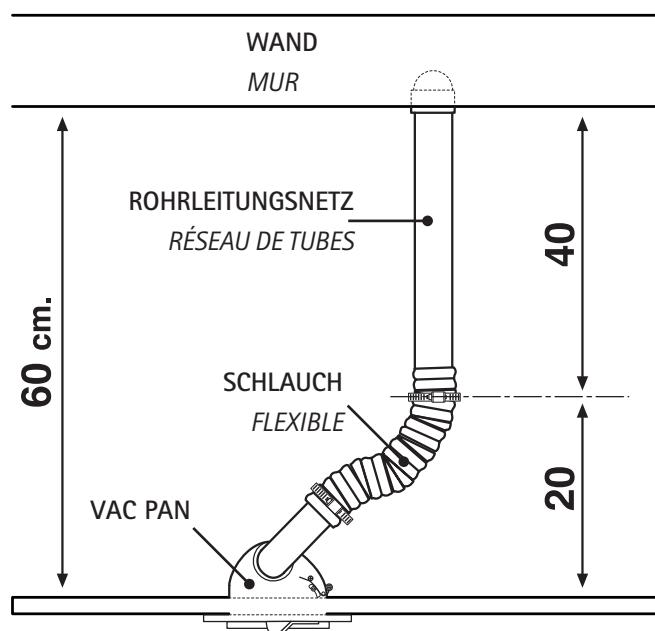

4

DRAUFSICHT DES ANSCHLUSSES AN DAS ROHRLEITUNGSNETZ

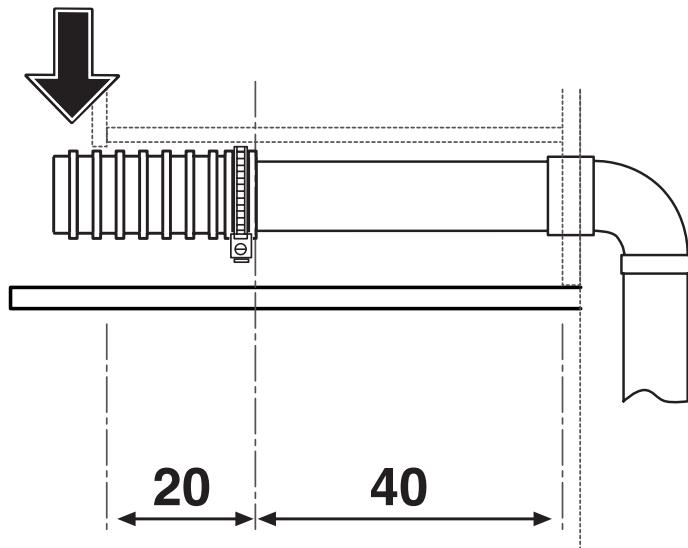

Der Anschluss der Saugsteckdose Vac Pan muss vorgenommen werden, wie in der Abbildung gezeigt, um die Montage/Wartung der Saugsteckdose zu erleichtern.

VUE SUR PLAN DU RACCORDEMENT DU RÉSEAU DE TUBES

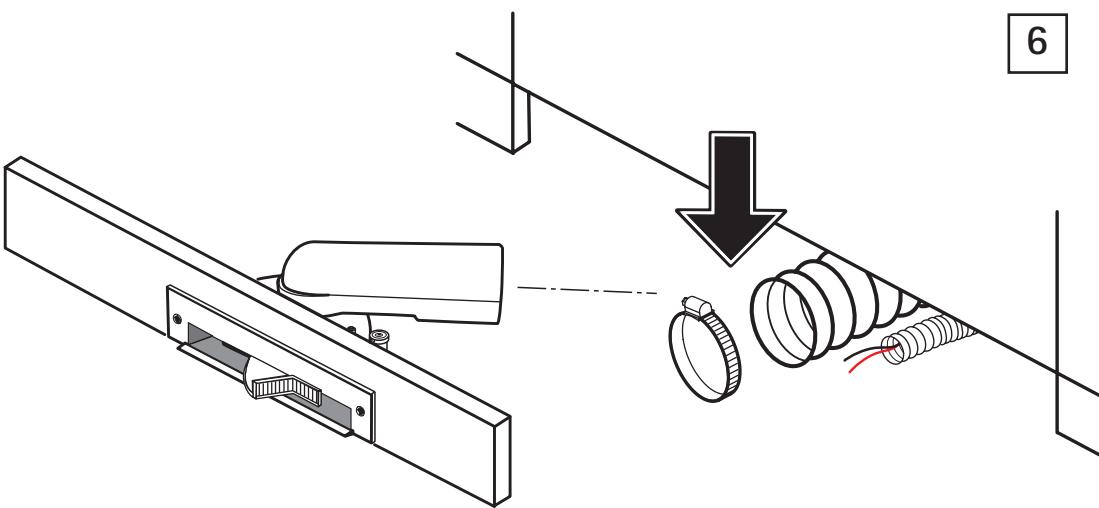

Le raccordement de la Prise Vac Pan doit être effectué comme indiqué à la figure afin de faciliter le montage/entretien de la prise.

5

6

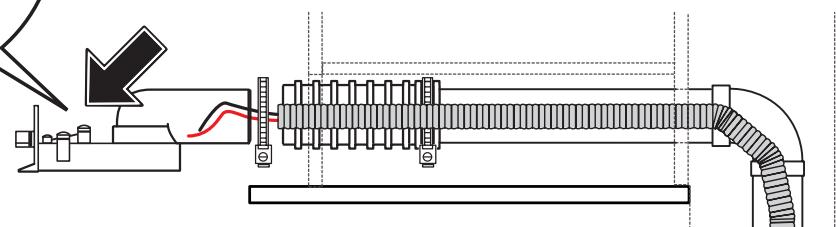

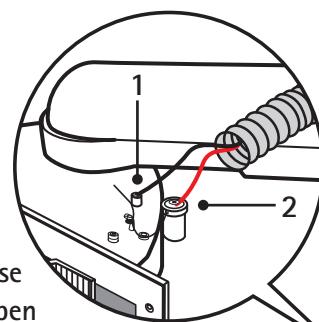

Den Anschluss für die Vac Pan Saugsteckdose an das Schlauchende anschließen, das aus dem Möbel kommt, und den Binder anziehen

Raccorder le raccord pour Vac Pan à l'extrémité du tube qui sort du meuble et serrer le collier

7

Die 12V-Saugsteckdosenleitung an die Klemmen der Saugsteckdose Vac Pan anschließen, wie angegeben

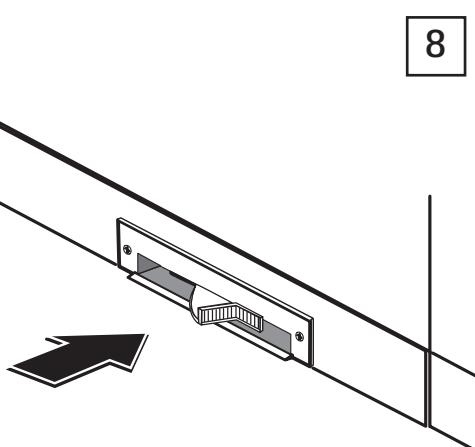

Raccorder la ligne des prises 12V aux bornes de la prise Vac Pan comme indiqué

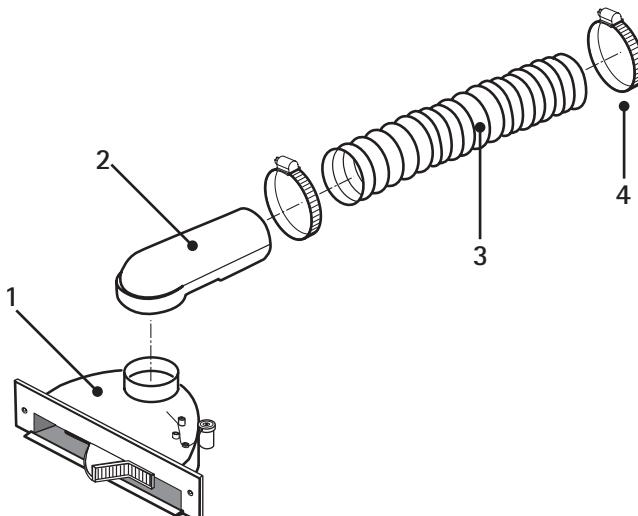

8

Alle Anschlüsse komplettieren und die Fußbodenleiste wieder am Möbelstück montieren.

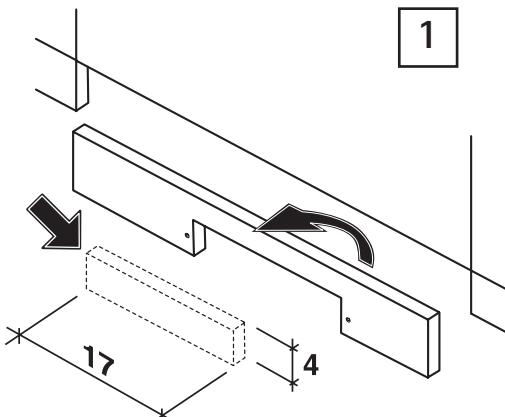

Une fois tous les raccordements complétés, remonter la plinthe sur le meuble.
