## Brush Ø 32 Turbo Carpet Cleaner with Wheels

The Ø 32 turbo carpet cleaner brush with wheels, **turbine and flow valve** is designed to offer deep and efficient cleaning of carpets and rugs.

Equipped with **powerful bristles and movable wheels**, this brush is ideal for lifting and removing dust and debris from carpet fibers, reviving their appearance

Thanks to the **new turbine technology**, the power transmission to the brush roller is optimized, ensuring a higher level of cleanliness.

The **adjustable airflow valve** allows you to adjust the flow for effective, high-speed cleaning even on the thickest carpets, ensuring continuous brush rotation.

The turbo brush is perfect for frequent and thorough cleaning, **ideal for accommodation facilities such as B&Bs and hotels, as well as for domestic use.**
